

Documentation

Welcome to the eZ Platform Developer documentation!

This is the center for eZ Platform documentation for developers and system administrators. Here you'll find information about installing, administering, managing, customizing and extending eZ Platform. The latest version is **v1.7.0** ([Release Notes](#)), available on the eZ Developer Hub: <https://ezplatform.com/>

Not a developer?
Take a look at our [user documentation](#) for editors and content managers.

New to eZ Platform?

See [Get Started with eZ Platform](#)

Looking for reference?

Read about the [API](#)

Need a specific recipe?
