5.3.0 Changelog

This page shows changes since 5.2.

Stories:

Key	Summary	Component/s
EZP-20172	Make REST HTTP cache aware with Location ID expiry	REST API v2, Symfony stack
EZP-20800	Configure Legacy Storage engine in Symfony service container	Field types, Legacy Storage engine, Public API interfaces, Repository & Services (Public API impl), Search, Symfony stack
EZP-21118	Implement HTTP CORS support	REST API v2, REST Client:JS
EZP-21191	Implement new internal format to cover ezxml capabilities	Field types
EZP-21315	Implement embed tag	Field types
EZP-21374	Start to remove use of search service in Business Layer (Repo) for Solr support	Repository & Services (Public API impl), Search, SPI interfaces
EZP-21387	As a developer I want a relation view so I can embed relations on my 5.x site	Public API interfaces, Repository & Services (Public API impl)
EZP-21427	Create a FieldType tutorial for doc	Documentation, Field types, Public API interfaces, SPI interfaces
EZP-21528	As a DemoBundle user I want access to 5.x based login/logout functionality	DemoBundle, Users and Access control
EZP-21562	Create separate synchronized repositories for API and SPI	GIT, Public API interfaces, REST Client:PHP, SPI interfaces
EZP-21678	Make unimplemented REST features return a 501	REST API v2
EZP-21961	Improve unit tests code coverage in FieldTypes	Field types, Test framework
EZP-21962	Improve ezfind to use Solr 4.x and enable use of Solr Cloud	Extensions/eZ Find, Search
EZP-22010	Clarify known issues with user-hash cache with multi-site on same domain	Caching, Symfony stack, Users and Access control
EZP-22045	As a developer, I want user login to be fully handled by Symfony stack	Users and Access control
EZP-22049	As a developer, I want to be able to configure IndexPage	
EZP-22051	As a editor, I want content preview to work with new stack	Content (images, XML, PDF, RSS, etc.)
EZP-22061	Refactor REST event listeners	Repository & Services (Public API impl), REST API v2
EZP-22066	Use lazy services whenever possible	Symfony stack
EZP-22081	As a developer, I want to be able to seamlessly use multiple user providers	Users and Access control
EZP-22089	As a Solr Developer I want API Search Field hinting	Public API interfaces, Repository & Services (Public API impl), Search, SPI interfaces
EZP-22099	As a developer, I want my legacy sso handlers to continue to work with new authentication system	Users and Access control
EZP-22103	As a Developer I want to be able to search & sort by Map Location in API	Extensions/eZ Google Maps Location, Public API interfaces, Search
EZP-22109	As a Editor I want to have a Place content type and a Placelist content type	DemoBundle, Extensions/eZ Demo
EZP-22110	As an end user I want to see a list of places that can be "geosorted"	DemoBundle, Extensions/eZ Demo
EZP-22111	As an end user I want to see on a Gmap a list of places	DemoBundle, Extensions/eZ Demo
EZP-22139	Require an official nelmio/cors-bundle branche	REST API v2
EZP-22141	Make root locations depend on siteaccess configuration in REST	REST API v2
EZP-22143	Fix dead code and type hinting issues reported by SensioLabs Insight	Repository & Services (Public API impl), Symfony stack
EZP-22145	Write documentation on login with Symfony stack	Documentation, Users and Access control

EZP-22151	Refactor Legacy SE to use Doctrine DBAL	Database related, Legacy Storage engine
EZP-22152	As a Developer I would like to see used templates in Web Debug Toolbar	Template language
EZP-22179	As a DemoBundle user I want to be able to use the new stack SSO	DemoBundle
EZP-22193	As a user I want to acces the eZ Webin toolbar in legacy mode on a Twig site in fallback mode	Extensions/eZ Website Toolbar
EZP-22210	As a developer I want to ship and run legacy extensions in Symfony Bundles	Documentation, Extensions, Upgrading
EZP-22217	As a UI Developer I need access to a country list	Field types, REST API v2
EZP-22260	As legacy User I want node assignment remote id to be kept on publish	Public API interfaces, Repository & Services (Public API impl), SPI interfaces
EZP-22264	Enhanced Comment bundle with Admin views	DemoBundle
EZP-22298	As an end user I want to display a place content	DemoBundle, Extensions/eZ Demo
EZP-22301	As a user trying the demo bundle, I want to see eZ Comment activated with a generic account to better understand how it works	DemoBundle
EZP-22337	Hidden state on Locations is not taken into account in ViewController	Symfony stack, Users and Access control
EZP-22351	Please get rid of is_logged_in cookie	
EZP-22438	Prototype a simplified search API	Public API interfaces
EZP-22464	Implement language switcher in Symfony stack	Language, Symfony stack
EZP-22568	As a Sysadmin I want to have official configuration files for nginx	Documentation, Install
EZP-22583	Make sense out of REST output indenting	REST API v2
EZP-22645	LocationSearch needs to take permission limitations into account	Repository & Services (Public API impl), Search

47 issues

Improvements:

Key	Summary	Component/s
EZP-6959	Support Dates before 1.1.1970	Misc
EZP-16144	ezpgenerateautoloads script does not have a 'quiet' option	Misc
EZP-19695	Enabling non automatic conversion of siteaccess names	Misc
EZP-20305	Be able to link from one SiteAccess to another	
EZP-20433	Documentation improvement: clusterpurge.php	
EZP-20502	avoid Symfony exception when file is missing for ezimage attribute	Content (images, XML, PDF, RSS, etc.), Legacy IO, Repository & Services (Public API impl)
EZP-20741	Add support for default content disposition global override	Field types
EZP-20809	ezuser: allow user to log in even when userinfocache is corrupted	Caching, Users and Access control
EZP-20816	eZContentClass: improve performance of content class update when a large number of contentobjects/attributes exists	Misc
EZP-21044	Rest Server should provide OPTIONS method	REST API v2
EZP-21154	Cleanup script for policies	CI System, Database related, Documentation
EZP-21294	Implement UrlAlias search criterion	Public API interfaces, Repository & Services (Public API impl), Search
EZP-21493	content fetch keyword filtered by subtree	Legacy IO
EZP-21645	Redirecting to another siteaccess	Misc
EZP-21713	Add possibility to override settings in Legacy Unit Tests	Extensions, Test framework

EZP-21744	Documentation: twig templates cannot be previewed in back end	DemoBundle, Design (templates, CSS, etc.), Documentation
EZP-21774	Define missing methods in eZClusterFileHandlerInterface	Legacy IO
EZP-21775	Make eZFSFileHandler implement eZClusterFileHandlerInterface	Clustering
EZP-21846	As a DemoBundle user I want the contact form to be displayed using symfony stack	DemoBundle
EZP-21872	Check system user when executing CLI scripts	Permissions
EZP-21889	Implement ContentTypeIdentifier Criterion visitor for Solr storage	Search
EZP-21924	[SensioLabsInsight] Refactor LegacyKernelController to be less than 20 lines	Symfony stack
EZP-21928	[SensioLabsInsight] Unused use statement should be avoided	Public API interfaces, Repository & Services (Public API impl), Symfony stack
EZP-21964	Improve test coverage of URLAliasService	Repository & Services (Public API impl), Test framework
EZP-21966	changes saved as draft, to user email, are stored as published	Legacy IO
EZP-22006	Add a configurable cookie whitelist to user hash generation	Caching, Symfony stack, Users and Access control
EZP-22065	Make SiteAccess a synchronized service	Symfony stack
EZP-22105	Implement Location search in API	Legacy Storage engine, Repository & Services (Public API impl)
EZP-22121	eZ Find : add support for commitWithin on delete operations	Extensions/eZ Find
EZP-22128	Move license and copyright info to LICENSE file	GIT
EZP-22146	roles applied to many users cause fatal errors	Legacy Storage engine, Permissions
EZP-22163	As a REST User I need to re authenticate existing session on login	REST API v2
EZP-22220	Session creation in REST API doesn't use Symfony SecurityContext	REST API v2, Users and Access control
EZP-22270	Add the possibility to hide the preview link in the controlbar	Documentation, Extensions/eZ Autosave
EZP-22279	Integrate storage engine configuration with DoctrineBundle connections	Database related, Repository & Services (Public API impl)
EZP-22315	Use ez_is_field_empty to do the checks in content_fields.html.twig	Symfony stack
EZP-22318	Make Symfony session options siteaccess aware	Symfony stack, Users and Access control
EZP-22341	As a DemoBundle user, I want to display blog_posts in a specific language	DemoBundle
EZP-22370	Refactored the LegacyResponseManager class	
EZP-22386	Support textarea custom attributes in the Online Editor	Extensions/eZ Online Editor
EZP-22415	Upgrade dependency to stash bundle to 0.3	
EZP-22431	Possibility to control draggable option on ezgmaplocation field	Field types
EZP-22479	SiteAccessLimitation support for use in new login system	Repository & Services (Public API impl), Users and Access control
EZP-22582	Make ezfind submeta attributes multivalued	Extensions/eZ Find
EZP-22590	Make debugging easier by skipping caches in dev	Symfony stack
EZP-22592	Add check for intl and xsl extension in setupwizard	Install
EZP-22597	Use composition on extended FragmentRenderers	Symfony stack
EZP-22602	Places: content tree default setup	DemoBundle
EZP-22608	A little bit of love for the Place view	DemoBundle
EZP-22610	DemoBundle: Add canonical link in head	DemoBundle, Extensions/eZ Demo
EZP-22617	Implement ezisbn field type	Field types
EZP-22623	Fix debug output HTML validation when using HTML5 doctype	

EZP-22651	Remove the mandatory form in the setup wizard	
EZP-22662	Implement core Public API configuration using Symfony container component	Repository & Services (Public API impl), Test framework
EZP-22744	Update default zoom factor in Gmap location	DemoBundle
EZP-22747	Store file based sessions outside cache folder by default	Caching, Users and Access control
EZP-22754	Make productDatatypeList configurable	Legacy IO
EZP-22795	Move Persistence Transaction handling to own handler	Repository & Services (Public API impl), SPI interfaces
EZP-22799	Configure Solr Storage engine in Symfony service container	Legacy Storage engine, Search, Symfony stack
EZP-22803	URLAlias: add configuration parameters to reverse lookup methods	Repository & Services (Public API impl)
EZP-22811	Prepare Symfony container configuration for multiple storage engines	Symfony stack
EZP-22880	eZ XML fields should output <strong> and <em> instead of <b> and <i>	Content (images, XML, PDF, RSS, etc.), Extensions/eZ Online Editor, Field types
EZP-22896	Setup wizard: Timeout on package retrieval	Install

63 issues

Bugs:

Key	Summary	Component/s
EZP-2881	AcceptPathInfo Test Bug	Misc
EZP-16372	deleting of content lasts very long	Extensions/eZ Find, Extensions/eZ Find/Indexing
EZP-19077	fatal error in ezjscore when encoding an object without a node	Extensions/eZ JSCore
EZP-19561	There is always a db connection although not needed	Caching
EZP-20570	ezcsvimport uses the storage-dir as filename if an ezimage is empty	
EZP-20682	eZRest v2 : Doc inconsintency regarding update user	Documentation, REST API v2
EZP-20813	eZDFS cleanup: Allow detection of NFS and DB availability to prevent accidental removal of files.	Clustering
EZP-20898	wrong ezurl behaviour in a legacy template loaded through new stack with ESI	Symfony stack
EZP-20923	Fatal errors on Windows stash fails with mkdir(): Invalid path	Caching, Documentation
EZP-20925	Restserver returns 500 or symfony error instead of 400 on bad input	REST API v2
EZP-20930	Missing root resources for url discovery	REST API v2
EZP-21124	Checkbox custom attributes on custom tags are not stored	Extensions/eZ Online Editor
EZP-21207	Render input parsing errors to a 400	REST API v2
EZP-21301	REST 404 catch-all prevent from extending the REST API	
EZP-21312	REST v2 lacks many paths necessary for self-description	REST API v2
EZP-21332	under some circumstances, ezfind generates a php warning when trying to log a warning message	
EZP-21344	[REST Spec] Wrong xml tag on the response of create view	Documentation, REST interface
EZP-21405	Documentation: search Query/Criterion documentation should not refer to 'master' branch	Documentation
EZP-21438	Improve relation permission handling to use view_embed	Permissions
EZP-21444	SQL query error in fetch('content', 'keyword') with some 'sort_by' parameters	Content (images, XML, PDF, RSS, etc.)
EZP-21554	Double slash in some REST API URI	REST API v2
EZP-21563	workflows: adding approval to media tree causes fatal error	Extensions/eZ Online Editor, Workflows
EZP-21681	Implement GET /content/types without identifier or remoteId arguments	REST API v2

EZP-21726	eZ Demo frontpage has copyright 2012 in the footer	DemoBundle
EZP-21728	Extension tests are added to extension autoload array instead of tests autoload array	Extensions, Test framework
EZP-21751	kernel::runcallback() does not always return to correct directory	Legacy IO, Symfony stack
EZP-21762	Missing break in ezfSearchResultInfo::attribute()	Extensions/eZ Find
EZP-21765	PHPUnit tests throw errors because derived methods don't match parent	Extensions/eZ Find
EZP-21766	Missing break in ezfeZPSolrQueryBuilder causes unneeded Warnings	Extensions/eZ Find
EZP-21767	assertType() is not supported in PHPUnit anymore	Extensions/eZ Find
EZP-21768	eZCollaborationItemGroupLink: Variable comparison instead of assignment	
EZP-21770	Session lazystart : unneeded/unwanted cookie creation	
EZP-21802	eZImageManagerTest not performed because of wrong control structure	Test framework
EZP-21807	link is duplicated on table row insertion	Extensions/eZ Online Editor
EZP-21817	When updating Content untranslatable field is copied instead of updated	Legacy Storage engine
EZP-21820	eZUser::getUserCacheByUserId() may return an eZClusterFileFailure instead of an array	Legacy IO
EZP-21823	[Composer] Behat version 2.5.* won't have a needed fix till release of next version	Install, Symfony stack, Test framework
EZP-21829	ezpINIHelper triggers notice when trying to override an unknown variable	Test framework
EZP-21861	node's path_identification_string should not have a leading /	Legacy Storage engine
EZP-21878	"Layout" attributes are lost when importing classes via package mechanism.	Extensions/eZ Flow
EZP-21897	As a developer I want all integration tests to pass with Solr	Search, SPI interfaces
EZP-21906	Search API returns wrong number of total objects with content having multiple locations	Legacy Storage engine, Repository & Services (Public API impl)
EZP-21916	http cache purger does not take user/password into account (basic auth)	
EZP-21920	loadRelations raises an exception when user cannot read	Repository & Services (Public API impl)
EZP-21933	[SensioLabsInsight] Unused method, property, variable or parameter	
EZP-21934	[SensioLabsInsight] Boolean property should not be prefixed by "is"	Symfony stack
EZP-21937	Documentation Update: eZFind Index Cronjob is deprecated	Extensions/eZ Find
EZP-21949	Increase code coverage in CoreBundle DIC extension	Symfony stack, Test framework
EZP-21952	user anonymous cannot be redefined	Symfony stack
EZP-21955	Access to restricted content results in error 500	Symfony stack
EZP-21958	Increase code coverage for EzPublishCoreBundle config parsers	Symfony stack
EZP-21967	Fix FieldType\Country\Type::getName()	Field types
EZP-21968	getName() in BinaryBase and Image Field Types might return null	Field types
EZP-21969	Improve coverage in eZ\Publish\IO	Legacy IO, Test framework
EZP-21970	When constructing URL alias path array of translations is not reset before returning first element key	Repository & Services (Public API impl)
EZP-21971	UrlAliasService::reverseLookup() does not respect showAllTranslations setting	Repository & Services (Public API impl)
EZP-21977	BinaryFile template output the file size in bytes	Design (templates, CSS, etc.)
EZP-21982	linkcheck.php and https protocol support	Cronjobs
EZP-21986	Removing an underline removes the surrounding custom tag	Extensions/eZ Online Editor
EZP-21988	Static cache is not automatically updated when async publishing is enabled	Caching
EZP-21989	Increase code coverage for EzPublishCoreBundle event listeners	Symfony stack

EZP-21991	UserHash should be cached tied to user session id, not user cookies	Caching
EZP-21997	Creating custom alias in storage does not fill in $pathData property	Legacy Storage engine
EZP-22021	PAPI image/binary should avoid using orignal name & hitting filesystem node limits	Content (images, XML, PDF, RSS, etc.), Field types
EZP-22024	custom tags lost with chrome (under specific conditions)	Extensions/eZ Online Editor
EZP-22027	UrlAliasService->listLocationAliases not being updated when a new urlAlias is added in Admin	Symfony stack
EZP-22028	Anonymous role in demo site package contains content/view_embed policy that is too wide	Packages, Permissions
EZP-22030	Object Relations order changed upon concurrent edition	Administration Interface
EZP-22032	ezmediatype creates empty records	Content (images, XML, PDF, RSS, etc.)
EZP-22036	Legacy Aware Route missing	Symfony stack
EZP-22039	ConfigResolver::hasParameter() doesn't check SiteAccess group scope	Symfony stack
EZP-22040	Link title is not rendered in XMLText Field type	Content (images, XML, PDF, RSS, etc.), Extensions/eZ Online Editor, Symfony stack
EZP-22055	REST path string parameters are not fully validated	REST API v2
EZP-22062	error 500 on /api/ezp/v2/content/locations/1	REST API v2
EZP-22079	order of ezobjectlist doesn't save	Administration Interface
EZP-22085	"Tab" characters in node name error (urlalias_iri)	
EZP-22095	eZ Star Rating does not work for anonymous	Extensions/eZ Star Rating
EZP-22098	0 as min or max allowed value of Float and Integer field is transformed to false in the REST API	REST API v2
EZP-22101	DefaultRouter may load the ConfigResolver too early	Symfony stack
EZP-22104	Fatal error when disabling CSRF protection	Symfony stack
EZP-22113	ezflow: adding items to block is not published immediately	Extensions/eZ Flow
EZP-22116	Install wizard throws ezcBaseValueException	Symfony stack
EZP-22118	ezflow blocks display empty spaces if missing object translations	Extensions/eZ Flow
EZP-22124	inline image alignment is not respected	Design (templates, CSS, etc.)
EZP-22131	Exceptions in legacy callback lead to unstable state	Symfony stack
EZP-22133	Define ezpublish.api.repository as a lazy service	Repository & Services (Public API impl), Symfony stack
EZP-22153	eZDemo install does not respect "leave data and do nothing in the db" selection	Extensions/eZ Demo, Install
EZP-22156	CSRF provider is not optional	Symfony stack
EZP-22157	Define a pagelayout for legacy modules in DemoBundle	DemoBundle
EZP-22174	Respect site.ini\[RoleSettings]\EnableCaching setting in eZUser::purgeUserCacheByUserId() and eZUser::getUserCacheByUserId()	
EZP-22177	eZPersistentObject::handleRows() adds bogus rows	
EZP-22178	Changing the main node does not update results in eZ Find	Extensions/eZ Find
EZP-22180	SPI: loading (reverse) relations does not check for published Content	Administration Interface, Caching, Public API interfaces
EZP-22188	Untranslated content can be viewed even when default language is not activated in current siteaccess	Language, Symfony stack
EZP-22195	Memcache configuration issue	Symfony stack
EZP-22204	"keep" value of ModuleViewAccessMode not working	
EZP-22224	eZJSCore CSS packer does not parse URL with query string correctly	Extensions

EZP-22225	Publishing content in a symfony command throws InactiveScopeException	Public API interfaces, Symfony stack
EZP-22227	Fix Solr tests	Test framework
EZP-22232	Fatal Error when calling eZContentOperationCollection::removeOldNodes() with inexistant object/object version	
EZP-22234	User group that it is in the Trash will also be displayed at the "Users without workflow IDs" of the setting page of eZMultiplexerType event	Workflows
EZP-22235	IO exception on windows filesystem	Legacy IO, REST API v2
EZP-22236	quotes in object name breaks state change with kernel error	Administration Interface
EZP-22239	When the preview siteaccess runs in legacy mode, it falls back into ezpublish_legacy.default.view_default_layout	Content (images, XML, PDF, RSS, etc.), Documentation, Symfony stack
EZP-22256	Copyright still shows 2013 in a bunch of files of legacy stack	
EZP-22265	Make the Blog content type by default visible in the content tree	Administration Interface
EZP-22272	Image alias generator throws exception if original file is not present	Content (images, XML, PDF, RSS, etc.), Symfony stack
EZP-22277	eZ Publish Production log is too verbose	Symfony stack
EZP-22308	SearchService: Filtering on Attributes of Type "Object Relation" does not work	Field types, Repository & Services (Public API impl), Search
EZP-22310	eZFind: Search may return nodes outside of chosen 'subtree_array'	Extensions/eZ Find, Extensions/eZ Find/Searching
EZP-22321	ezjscore cache (packed js/css) doesn`t get cleared without purge	Caching, Clustering
EZP-22326	[REST] GET Content request fails when the content has no locations	REST API v2
EZP-22328	Inline doc in logfile.ini can lead to error in updateviewcount script	Cronjobs
EZP-22333	Tag cloud + object state limitations generate a fatal SQL error	Extensions/eZ Demo, Extensions/eZ Website Interface
EZP-22340	Error after installation ("Could not find 'Content' with identifier 'array ('id' => 57)	DemoBundle, Extensions/eZ Demo, Install
EZP-22353	Travis database error on ezpublish-community	
EZP-22357	ContentSearchAdapter and ContentSearchHitAdapter have some errors in inline documentation	Documentation, Public API interfaces
EZP-22358	SiteAccessRules setting doesn't work well in the Symfony Stack	Symfony stack
EZP-22366	Canonical URL not shown due to wrong bitwise AND operation on ezpagedata	Extensions/eZ Website Interface
EZP-22368	eZ Find: search index update script does not work with '--allow-root-user' option	
EZP-22378	Reflect new repository configuration in SetupWizard	Database related, Symfony stack
EZP-22387	Error rendering a page block with trashed content	Symfony stack
EZP-22391	eZFind: Incorrect policy limitation when no 'content/read' access exists	Extensions/eZ Find, Search
EZP-22392	eZodoscope: Do not track and cache issues	Extensions/eZ Odoscope
EZP-22397	Error dispalying eZ Page block items on new stack	Extensions/eZ Demo, Extensions/eZ Flow
EZP-22398	purge imagealias cache does not remove the aliases in xml attribute data_text	Caching
EZP-22399	When calling the method eZContentObject::relatedObjectCount with the IgnoreVisibility parameter, the count is not good	Content (images, XML, PDF, RSS, etc.)
EZP-22402	Image disappears when removing the original of a copied content object	Content (images, XML, PDF, RSS, etc.)
EZP-22404	Fatal error on UserService::createUser()	Repository & Services (Public API impl)
EZP-22409	Creating a content via the Public API with object relations fails if class is being edited	Public API interfaces
EZP-22414	Session is lost when redirecting from a legacy module	Misc, Symfony stack
EZP-22419	Clearing cache in CLI when eZ Publish is not yet installed leads to database error	Caching
EZP-22426	DetectMobileDevice redirection fails for URI	Misc

EZP-22427	ez_is_field_empty broken on Object Relation fields	Symfony stack
EZP-22430	Custom Location URL Alias not using redirect / 301	
EZP-22434	Forum subscribe never accessible	Extensions/eZ Demo
EZP-22435	Checkbox not stored on custom attribute if editor is disabled and there is no default value	Extensions/eZ Online Editor
EZP-22437	JSON decode result is not checked in the input parser	REST API v2
EZP-22446	AllowedRedirectHosts fix won't work with ports	Misc
EZP-22447	Removed content still shows on frontend until http cache expires	Caching
EZP-22456	Roles and Policies assigned to parent user group not inherited	Permissions, Users and Access control
EZP-22457	XMLText uses canUser API wrong on location embeds	Content (images, XML, PDF, RSS, etc.), Permissions, Repository & Services (Public API impl), Symfony stack
EZP-22465	Decouple build of handlers in Legacy storage engine	Repository & Services (Public API impl), Symfony stack
EZP-22466	Related Objects editing not saved when AdvancedObjectRelationList is used	Field types, Misc
EZP-22471	When loading resource in non-published version mainLocationId in ContentInfo is always null	Symfony stack
EZP-22472	Incorrect error handling	Clustering, Legacy IO
EZP-22474	Preview Authorization uses wrong policy function	Administration Interface, Permissions
EZP-22476	DemoBundle stack thrown if image alias not found.	DemoBundle
EZP-22477	Image Alias is not found on preview if not defined in admin site access	Symfony stack
EZP-22480	Object creation does not respect attribute constraints in ezoe	Extensions/eZ Online Editor
EZP-22481	Kernel: overlapped Identity name definition	
EZP-22487	paragraph drops its class when alignment is applied in ezoe	Extensions/eZ Online Editor
EZP-22498	eZFlow: non-translatable layout is not updated for secondary languages	Administration Interface, Extensions/eZ Flow
EZP-22502	Missing 'ngsymfonytools' extension	Extensions, Symfony stack
EZP-22504	Notice: Undefined variable: moduleName in ezfunctionhandler.php	
EZP-22507	Unable to run any php ezpublish/console commands on PHP 5.3.3	Symfony stack
EZP-22509	HTML pasted into literal ends up outside literal tag when the source is not plaintext	Extensions/eZ Online Editor
EZP-22516	import broken image using PAPI leavs inconsistent data in the db	Repository & Services (Public API impl)
EZP-22517	ezxml header level handling is broken inside custom tags	Extensions/eZ Online Editor
EZP-22519	Duplicating a content version results in an empty draft if maximum versions is reached	Administration Interface
EZP-22524	"Object not available" on user/register	Users and Access control
EZP-22525	On preview, JS and CSS is broken when using host-match mapping	Symfony stack
EZP-22531	Unable to install eZ Publish 5.3-dev using dev environment	Symfony stack
EZP-22563	Single line break is lost on headers	Administration Interface
EZP-22569	Removed Location still shows on frontend until http cache expires	Caching
EZP-22579	Function call recursion on eZIni cache generation with PHP 5.5	Caching
EZP-22589	"Missing form token from Request" when trying to vote a poll from a block poll with a logged user	DemoBundle
EZP-22603	Html Title not reflecting content in Demo Bundle	DemoBundle
EZP-22604	Tag Block has display bugs	DemoBundle
EZP-22605	No button to disable geosorting when on	DemoBundle
EZP-22612	Error in UrlAliasService:matchLanguageCode() with same path string in differents	Repository & Services (Public API impl)

languages

EZP-22625	Circular reference on ezsettings.default.session_name	Symfony stack
EZP-22627	Place listing is not language aware	DemoBundle, Extensions/eZ Demo
EZP-22628	Trashing an edited user throws errors
