# ParentContentTypeLimitation

A limitation to specify if user has access to `Content` where parent locations is of specific `ContentType`, used by `content/create`.

> ℹ️ **Tip:** This limitation combined with `ContentTypeLimitation` allows you to define business rules like allowing user to create "Blog Post" within a "Blog", if you also combine with `ParentOwnerLimitation` you effectually limit access to create Blog Posts in the users own Blog.

| Identifier | ParentClass |
|---|---|
| **Value Class** | eZ\Publish\API\Repository\Values\User\Limitation\ParentContentTypeLimitation |
| **Type Class** | eZ\Publish\Core\Limitation\ParentContentTypeLimitationType |
